

NAME: _____

Knowledge Frameworks: The [.....] as an Area of Knowledge

| | |
|--|--|
| What is the area of knowledge? (Definition) | |
| What is the purpose of the area of knowledge? (What does it tell us about the world and how can we apply it? If we can't, what is it good for?) | |
| How do we make knowledge in this area? (Methods. What do we do? Make equations, do proofs, or do we experiment? What is it?) | |
| What are the ways of knowing that contribute most to this area of knowledge? (Reason? Empiricism?) | |
| What values do we apply to these processes? (Are there rules that we have to follow? A system?) | |
| What is an example of a practitioner of this area of knowledge? How does personal knowledge influence shared knowledge? | |
| What is the origin and/or history of the area of knowledge? | |
| Who uses this area of knowledge? | |
| Is this area invented or discovered? | |
| What is the relationship between this area of knowledge and reality? | |
